## Overview

Arizona added 759,337 people, an increase of $11.8 \%$ from 2010. The number of Congressional Districts remained unchanged at 9 . Phoenix experienced population decline near its city center. The greater surrounding area of Chandler, Gilbert, Apache Junction, Maricopa, and Wittman saw their populations increase. All of the state's border regions with the exemption of District 13 which stretches from Yuma to Buckeye, experienced population declines. The state's Northwest region lost $18.6 \%$ of its population.

The state's white population grew $3.27 \%$. but still fell from $57.81 \%$ of the total population to just $53.37 \%$. The growth came from a population shift from rural areas to suburban areas outside cities like Mesa and Glendale.

The state's Hispanic or Latino population was up 15.68\%. Latinos now take up 30.66\% of the population up $1.01 \%$ from the decade before. The Latino population also experienced growth across the state's districts. The Phoenix area saw some population growth but similar to the white population, a majority of their growth occurred in suburban areas outside of Phoenix.

The African American population grew $32.65 \%$ in the state. They now make up $4.43 \%$ of the state's population, up from 3.74\% in 2010. Every district saw growth in its African American population, six of which experienced growth rates of over $30 \%$. Although the capital of Phoenix experienced population loss across the city, its African American population greatly increased across its districts.

## Congressional

The charts below display the percent change in population from 2010 to 2020 for the listed group. Please note that the color bars are fixed to be from $-40 \%$ to $40 \%$ and these maps are displayed in brown to purple. If the percent change in population was outside of this range, the color scheme changes to red to green to indicate a change.
