# Overview

North Dakota added 105,848 people to their population, an increase of 15.75% from the previous decade. North Dakota saw a majority of its population growth occur in the western and northwestern parts of the state, specifically by Williston (District 1). As urban centers like Bismarck, Dickinson, and Fargo saw the largest increases in population while the more rural east saw decreases, North Dakota aligns with the general national trend of movement from rural to urban/suburban areas.

The White population increased by 6.28% over the decade not in accordance with its national patterns of decline. Similar to the state's general trends, the White population decreased in the eastern half of the state and experienced growth around major cities. The *overall share* of the population is now 81.63% compared to 88.91% in the 2010 Census.

The American Indian and Alaska Native population increased by 5.03% over the decade across the state. Growth followed general patterns, as increases were concentrated around urban areas primarily in the west with decreases in the east. The *overall share* of the population is now 4.80% compared to 5.29% in the 2010 Census.

The Latino population grew by 148.11% over the decade across all areas of the state, though increases were concentrated more to the western side of the state. The *overall share* of the population is now 4.29% compared to 2.00% in the 2010 Census.

The African American population increased by 238.82% over the decade across the state, though most significantly around Williston (Districts 1 and 2). Decreases were seen in Districts 2, 9, and 28. The *overall share* of the population is now 3.36% compared to 1.15% in the 2010 Census.

The Asian population increased by 90.82% over the decade across the state, primarily the west. Significant decreases were seen near Fargo in the west (Districts 13, 20, 44, and 45). The *overall share* of the population is now 1.68% compared to 1.02% in the 2010 Census.

## Congressional

\*North Dakota has one At-Large Congressional District.

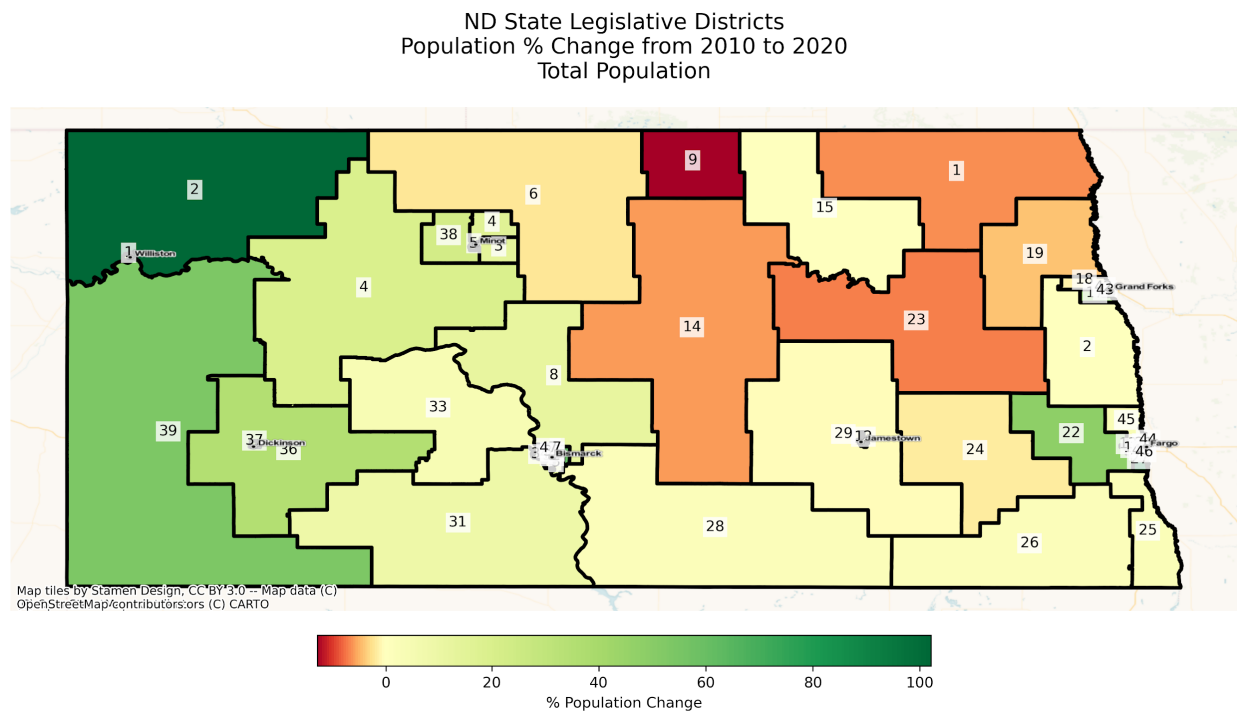

# State Legislature

The charts below display the percent change in population from 2010 to 2020 for the listed group. Please note that the color bars are fixed to be from -100% to 100% and these maps are displayed in brown to purple. If the percent change in population was outside of this range, the color scheme changes to red to green to indicate a change.

North Dakota shares the same districts for its State Senate and State House.
